LEDGERLINE

Accounts payable automation for mid-size manufacturers

For finance leaders. Sample deck: the company and its figures are fictional.

Invoices still get typed in by hand

TODAY

AP teams key in every invoice

At most manufacturers, someone still enters invoices by hand.

↓

LEDGERLINE

The software reads and matches them

It matches each invoice to the purchase order and receiving record and sends exceptions to the right person.

Most invoices are matched without a person

140

Customers

82%

Invoices matched
with no human touch

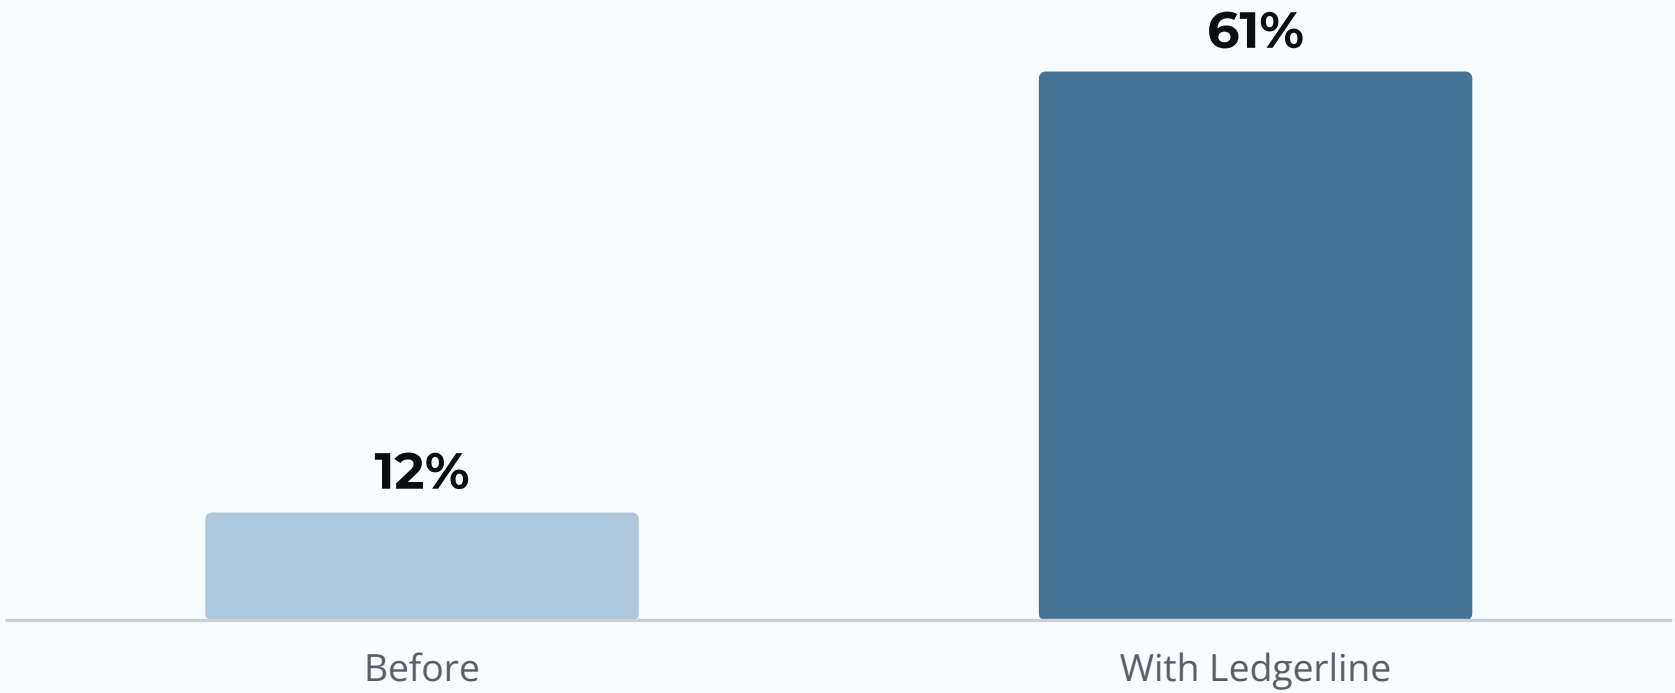
$2.90

Cost per invoice with Ledgerline

Cheaper and faster than manual AP

	MANUAL AP	LEDGERLINE
cost per invoice	$11.40	**$2.90**
approval time	9 days	**2 days**
invoices matched without a person	0%	**82%**

Teams capture far more early-payment discounts



Share of eligible invoices

Ledgerline takes an invoice from capture to payment

01

Capture the invoice

02

Three-way match

Invoice, purchase order and receiving record

03

Route exceptions

Each one goes to the right person

04

Pay and sync to your ERP

Works with your ERP

- SAP Business One
- NetSuite
- Microsoft Dynamics 365
- Epicor

Live in four weeks

WHEN	WHAT
week 1	connect ERP
weeks 2-3	train on your invoices
week 4	go live

“We closed the month four days faster in the first quarter.”

Rob Kessler
Controller, Hartwell Fabrication

Pricing scales with your invoice volume

$1,200/month

Pricing starts at

2,000

Invoices included
